WHAT TO DO WHEN YOU RECEIVE YOUR TEST RESULT

If you receive a **positive result**

If you test positive, you must self-isolate, along with everyone you live with. This is to help prevent passing the virus on.

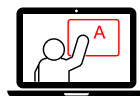

If you receive a **negative result**

If you test negative, please remember that this result only reflects your status at the time of taking the test. Cases of COVID-19 remain high across London so it's important that you get tested regularly and keep following the public health advice to protect yourself and others.

Need support to self-isolate? Camden Council is here for you
